VAUPELL NORTHEAST MOLDING & TOOLING ADDS TO ITS CAPABILITIES

Agawam Manufacturer Announces New Machine to Better Serve Clients

Agawam, MA-Vaupell Northeast Molding & Tooling facility of Agawam, MA can now offer its customers larger parts, thanks to a new machine. The Western Massachusetts manufacturer recently added a Cincinnati Milacron 440ton horizontal injection molding machine to its105, 000 square foot facility. The machine enables Vaupell to service its clients in need of larger scale parts. The machine can hold a mold up to 29" x 29" x 28"/10 with a maximum shot size of 56oz. The plant now has a total of forty-five injection molding machines ranging from 55 to 440 tons capacity.

Vaupell anticipates this addition to the plant will attract new customers who need larger parts, both locally and worldwide. "This machine simply adds a greater range of capabilities to our existing facility. We purchased this machine in response to existing customer needs and hope to fulfill the needs of other customers" said Thom Murphy, Director of Business Development.

The Agawam facility manufactures components and subassemblies for the medical device industry including pipette tips in a fully-automated cell which includes 100% electronic inspection, defect replacement, racking in trays, and packaging. Vaupell has in-house mold building and precision machining capabilities for custom fixtures and gauges. Vaupell's molding capabilities include clean room molding and assembly, scientific injection molding and a variety of secondary and bonding operations, within one of the largest clean rooms in New England, spanning 11,500 square feet with Class 7 and Class 8 certification.

About Vaupell, Inc.
Vaupell, Inc is a world leader in the supply of sophisticated molded products and assemblies. The international company provides integrated solutions to customers in niche markets including medical, transportation, aerospace, defense and electronics. From concept to completion, Vaupell's capabilities include rapid prototyping, domestic & offshore tool design & build, custom fixtures & gauges and injection molding services for small to medium volume production. Vaupell has facilities in Seattle, WA, Agawam, MA, Constantine, MI, Hudson, NH, Sanger, TX and Shenzhen, South China.
